A Website Model That Makes Money

August 19, 2026
Build a simple website around a useful digital product. Price it against real costs, test the buying experience, and add other revenue only if it helps.

Become an Expert at Something

August 19, 2026
Expertise starts with a skill you can perform reliably. Choose a narrow problem, practice with feedback, and show what you've learned through a useful example.

Use Google Ads To Drive Targeted Traffic

August 19, 2026
Google Ads can put your site in front of people already searching for what you offer. Learn how to choose keywords, control match types, track conversions, and cap spending.

Use a Tell-A-Friend Script to Drive Traffic

August 19, 2026
A tell-a-friend form can bring visitors when people choose to share a page. Build it so the sender controls every send and no one is added to a list.

Seven Ways To Increase Your Traffic Without Guarantees

August 19, 2026
No method guarantees traffic. These seven approaches grow it steadily, starting with a tested paid search budget and helpful content. Link trading is excluded.

Why You Gotta Use SEO

August 19, 2026
Search engine optimization helps people find your online store. Here is what it is, why it matters, and the basic steps Google recommends.
